Partners: Microsoft Cloud Solutions Provider (CSP); Pax8 Partner/Reseller

Staff Certifications: Security+, CySA+, PMP, CISM

Clearance Experience: Personnel with TS/SCI experience (as required by role)

Overview

CloudByte Group LLC provides managed IT, security operations, and compliance-ready delivery for commercial and government-adjacent organizations. We manage identity, endpoints, cloud services, backups, and monitoring with controlled change and documentation that stands up to review.

Core Competencies

Managed IT & Cloud Operations

24x7 IT support plus Microsoft CSP services for licensing and tenant administration (Commercial, GCC, and GCC High).

Security Operations & Hardening

24x7x365 SOC coverage for monitoring and response, focused on ransomware, phishing, identity hardening, and investigation support.

Business Continuity & Disaster Recovery

Backup and recovery strategies with restoration validation to reduce downtime after ransomware or catastrophic events.

Compliance Readiness & Governance

Support aligned to CMMC and NIST 800-171, including SSP and POA&M; assistance and policy/procedure development with evidence organization.

Differentiators

Shared accountability. We document what we change, why, and how it was validated.

Direct communication. Dedicated portal plus email and phone access, with ticket ownership to closure.

Government context. U.S.-citizen, background-checked staff with clearance-capable profiles and cleared experience on the team (as required).

Vendor alignment. Microsoft CSP and Pax8 partnerships for cloud solutions and licensing strategy.

Typical Engagements

Tenant and cloud migrations, identity and endpoint hardening, BCDR implementations, and compliance readiness support with audit-friendly documentation and handoff.
